

H2X-T1000

Removable and connected hydrogen tank

H₂ storage
Plug and play
H₂ and tank traceability

Input

Dimensions of the filling fitting : ø G 1/8»

Output

H₂ quick coupling connector : ø 3/8»
H₂ vent outlet (TPRD) : ø 3/8»
Max H₂ flowrate : 8,8 g/s
Exit pressure : 10 bar

Accessories

Transport wheels,
ergonomic handles, fixing
system by metallic belts

RHYDE

Position, pressure,
temperature measurement,
real-time GNSS system

1220*360*360 mm

20-300 bar

46.5 L

37 kg

-40°C to 65°C
